

## THE SOLUTION: A PRIVATE / PUBLIC PARTNERSHIP

- **Builds Upon Past Successes.** In fiscal year 1988, the Arizona judiciary established the benchmark of \$70 million dollars for collection of court fines, fees and surcharges. Since that time, courts have collected more than \$1 billion in additional revenue
- **Utilizes a Proven Model.** FARE utilizes best practices that have been proven in private and public environments, including courts in Arizona and around the country, to enhance compliance with financial obligations.
- **Partners with a Respected Business Leader.** Affiliated Computer Services, Inc. (ACS) has a long established track record for commitment, excellence, innovation, and working with courts to meet local needs.
- **Implements Adopted Laws.** In 1993 the Arizona State Legislature authorized the Traffic Ticket and Enforcement Program (TTEAP). FARE implements this program, through a partnership with the Arizona Department of Motor Vehicles.
- **Enhances Existing Programs.** FARE will enhance existing collections programs by giving citizens additional options for compliance, including, for example, WEB-based and IVR credit card payments.
- **Better, Cheaper, Faster.** Implementing FARE in multiple courts will result in economies of scale and additional services including courtesy and delinquency notices.
